DEER-RESISTANT GARDEN PLAN

Planting Guide

A – Artemisia

D – Foxglove

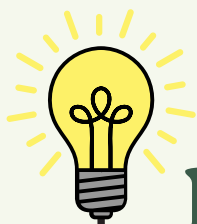

B – Lupine

E – Allium

C – Lavender

F – Vinca Rose

PLANTING TIPS

- Choose a location that gets plenty of sun
 - Artemisia & Allium will tolerate full sun but prefer some light shade
 - Foxglove, Lupine & Lavender thrive in full sun
- Keep in mind: Artemisia can spread and grow quite large
 - space plants 12-18" apart
- Avoid overwatering: allow soil to dry out between watering
 - Some of these plants are more draught-tolerant than others but all are sensitive to root rot
- This plan calls for **Vinca Rose** - aka Madagascar Periwinkle - a hardy, flowering annual NOT Vinca Vine, a vining perennial often used for groundcover.
